

Range specification worksheet

Record the requirements a technical team would confirm before procurement review.

Application

- Vehicle or equipment make / model / year
- Operating environment and duty cycle
- Required quantity and target date

Electrical requirements

- Nominal voltage
- Capacity (Ah)
- Cold-cranking current (CCA)
- Charging-system compatibility

Physical fit

- Case dimensions (L x W x H)
- Terminal type, orientation and polarity
- Hold-down and mounting arrangement

Review outcome

- Proposed range and model
- Open technical questions
- Specification approved for procurement review
